# SRIJAN

Quarterly Newsletter/volume-II/September 2026

Editors:

Rupashree Tamang  
Hardika Nath

# Meaning Of Cover Page

“**E**very great change begins with one person willing to take responsibility.”

- The giant rock represents the challenges we face, while the student pushing it forward symbolises the courage, effort, and determination to take responsibility and create change. It reminds us that responsibility means stepping forward, facing challenges, and turning obstacles into opportunities for growth.

“Take Responsibility. Make a Difference.”

# From Principal's Desk

**I**t gives me immense pleasure to present the 2<sup>nd</sup> edition of "SRIJAN," our quarterly school newsletter, which serves as a vibrant platform to celebrate the creativity, achievements, experiences, and aspirations of our students and teachers.

The word "Srijan" means creation. True to its name, this newsletter is an endeavour to nurture the spirit of creativity, curiosity, and innovation among our young learners. Education is not merely about acquiring knowledge from textbooks; it is also about discovering talents, developing confidence, expressing ideas, and learning through experiences.

Each quarterly edition of SRIJAN brings together the diverse activities and accomplishments of our school community. Through photographs, achievements, and creative expressions, poems, articles our students get an opportunity to share their voices and showcase their unique talents.

I deeply appreciate the sincere efforts of our students, teachers, and the editorial team who have worked together to make SRIJAN a meaningful reflection of our school life. I encourage every student to participate wholeheartedly and continue to explore their creativity.

May SRIJAN continue to inspire our young minds to think creatively, learn joyfully, express confidently, and create meaningfully.

My best wishes to the entire team for the continued success of SRIJAN.

## Column

Hardika Nath   Rupashree Tamang

“Srijan”—the name itself seems to hold within it the endless possibilities of creation, the emergence of new ideas, and a vast world of imagination. It is a matter of great pride and joy for us to have the opportunity to serve as the editors of our school magazine.

A school is not merely a place to acquire knowledge from textbooks; it is a beautiful platform where one learns to dream, think, feel, and express one's talents. In this spirit, “Srijan” is not merely a magazine; it is a living reflection of the creativity, emotions, and thoughts of our school community.

This edition of “Srijan” brings together a vibrant collection of poems, stories, articles, drawings, and other creative expressions by our respected teachers and dear friends. Each contribution is a reflection of a thought, a feeling, a dream, or a unique perspective. While some have expressed themselves through the power of words, others have used colours, ideas, and imagination to give shape to their creativity. Together, these diverse voices and forms of expression make “Srijan” a beautiful celebration of talent, imagination, and individuality, making this edition truly special and memorable.

A school magazine is a mirror of the school—it reflects its education, culture, talents, thoughts, and creativity. As we turn the pages of “Srijan,” we can experience a beautiful blend of the talents and dreams of our students and the love, guidance, and inspiration of our teachers.

We extend our heartfelt gratitude to all the respected teachers, students, and well-wishers who have contributed their valuable time, suggestions, writings, and creative works towards bringing this magazine to life. Without your cooperation and encouragement, it would have been difficult to make the journey of “Srijan” so beautiful and meaningful.

Finally, we sincerely hope that every page of “Srijan” plants the seeds of new thoughts in the minds of its readers, encourages creativity, and inspires every creative mind in our school to take another step towards their dreams.

# Teacher Spotlight

➤ What first inspired you to become a music teacher?

Ans : My deep love and passion for music inspired me to become a music teacher. I believe music is a powerful medium of expression that connects people, nurture emotions, and brings joy to life.

➤ Which instrument was /is your first love and why?

Ans: Tanpura has always been my first love although it doesn't have a defined melody or rhythmic meter, its continuous sound creates a sense of calm, depth timelessness. It provides a beautiful musical foundation and allows the listener to connect with their own thoughts and emotions.

➤ Who is your musical role model or favorite artist?

Ans: My favorite artists and musical inspirations are Lata Mangeshkar and Kishore Kumar. Their exceptional voices, versatility and timeless contribution to Indian music continue to inspire me.

➤ What you like most about teaching music to students?

Ans: What I enjoy most is helping students discover their musical abilities and develop confidence. It is especially rewarding to see students overcome their hesitation, enjoy performing, and gradually express themselves through music.

➤ How you motivate students who thinks they are not musical?

Ans: When a student says, "I am just not musical," I try to help them overcome that mindset or anxiety. As a music teacher, my primary aim is to create a supportive environment where students can learn without the fear of making mistakes or being judged.

➤ What you like most about teaching music to students?

➤ How you motivate students who thinks they are not musical?

Ans: When a student says, "I am just not musical," I try to help them overcome that mindset or anxiety. As a music teacher, my primary aim is to create a supportive environment where students can learn without the fear of making mistakes or being judged.

➤ Since you are teaching music in school for few years now, can you share your experience with us.

Ans: My journey as a school music teacher over the past few has been a very rewarding and memorable experience for me. I have had the opportunity to work with students of different age groups and abilities.

One of the most satisfying parts of my journey is watching students who are initially shy and gradually gain confidence through singing and performing.

Preparing students for school events, assembly and special occasions has also taught me the importance of patience, teamwork and proper guidance. Over the years, I have also learned a lot from my students. Their enthusiasm and creativity inspire me to keep moving as a teacher. Overall, my experience has been a beautiful journey of learning, sharing and growing together through music.

# TOGETHER WE CELEBRATE

# TRIBUTE TO Dr. BHUPEN HAZARIKA

*Remembering the legendary Dr. Bhupen Hazarika through his timeless melodies and graceful dance performances. A humble tribute by our students to celebrate the voice that continues to inspire generations.*

# YOGA DAY

Breathing in positivity, stretching towards excellence!  
Under the expert guidance of our resource person, our students embraced the spirit of Yoga—building strength, balance, and mindfulness for a healthier tomorrow.

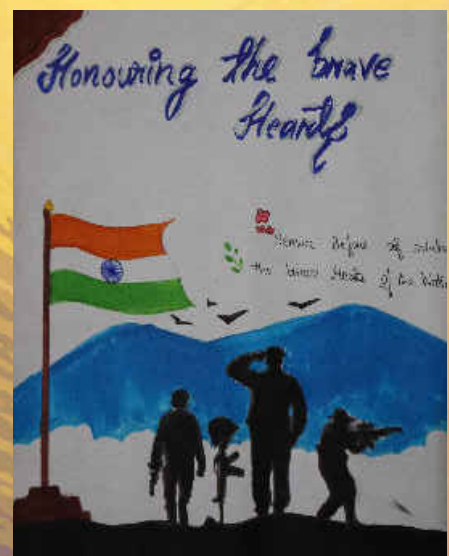

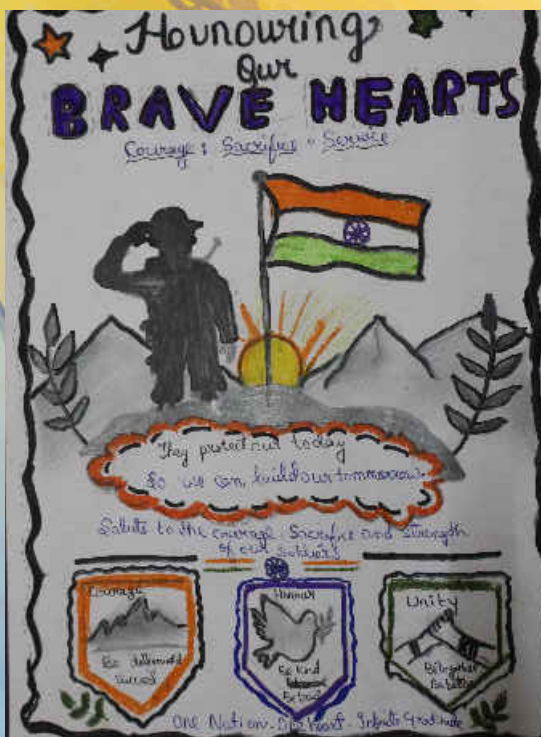

# Pre-Primary Activity

Tiny Krishnas and adorable Radhas filled our campus with joy, colours, and devotion as our Pre-Primary students celebrated Janmashtami with beautiful traditional attire, cheerful smiles, and festive spirit.

## If Life Were a Mathematical Equation

What if life came with an equation?

Would we know which values to put in? Would every problem have a fixed method? And most importantly, would we always get the answer we expected?

As a Mathematics teacher, I often hear students ask, “Ma’am, what is the answer?” Mathematics teaches us to look for an answer, but it also teaches us something more important—the process of finding it.

Perhaps life is also an equation, but one in which some values are known and some are not. Our dreams, choices, experiences, relationships and challenges could all be variables. Some are in our control, while others are not. One unexpected change can completely change the equation.

In Mathematics, a small mistake in one step can lead to a different answer. Life is no different. We make mistakes, take wrong turns and sometimes make choices we wish we could change. But we don't throw away a problem because of one mistake. We go back, find where we went wrong, correct it and try again. Maybe we should treat our mistakes in life the same way.

Another beautiful thing about Mathematics is that there can be different ways to reach the same answer. One student may solve a problem in two steps, while another may need five. Both can be correct. Life also has different paths. We do not all have to achieve our goals at the same time or in the same way.

And then there is the most interesting part—the unknown.

In an equation, we may have to find  $x$ . In life, we are constantly trying to find our own  $x$ —our purpose, our direction, our happiness and sometimes even our courage.

If life were a mathematical equation, I would not want it to be a perfectly solved one. I would want it to have a few unknowns, some challenging problems, a few wrong answers, and enough space to try again.

Because Mathematics has taught me that the beauty is not always in getting the answer quickly.

Sometimes, the real learning happens while we are solving the equation.

And perhaps, that is what life is all about.

# The Role of a Teacher in Shaping Individuals and Transforming Society

*"A school can create a hunger for knowledge and a thirst for changing society."*

**E**ducation and healthcare, like food, clothing, and shelter, are among the basic necessities of human life. Yet, despite the progress of civilisation, we continue to witness shortcomings in our education and healthcare systems. In a world filled with countless books, great teachers, philosophers, and scientists, why do violence, hatred, and intolerance still exist? Why does the natural curiosity of children gradually fade within the walls of schools? Why do some children develop a fear of learning?

These questions compel us to reflect on the true purpose of education and the vital role of teachers in shaping the future of society.

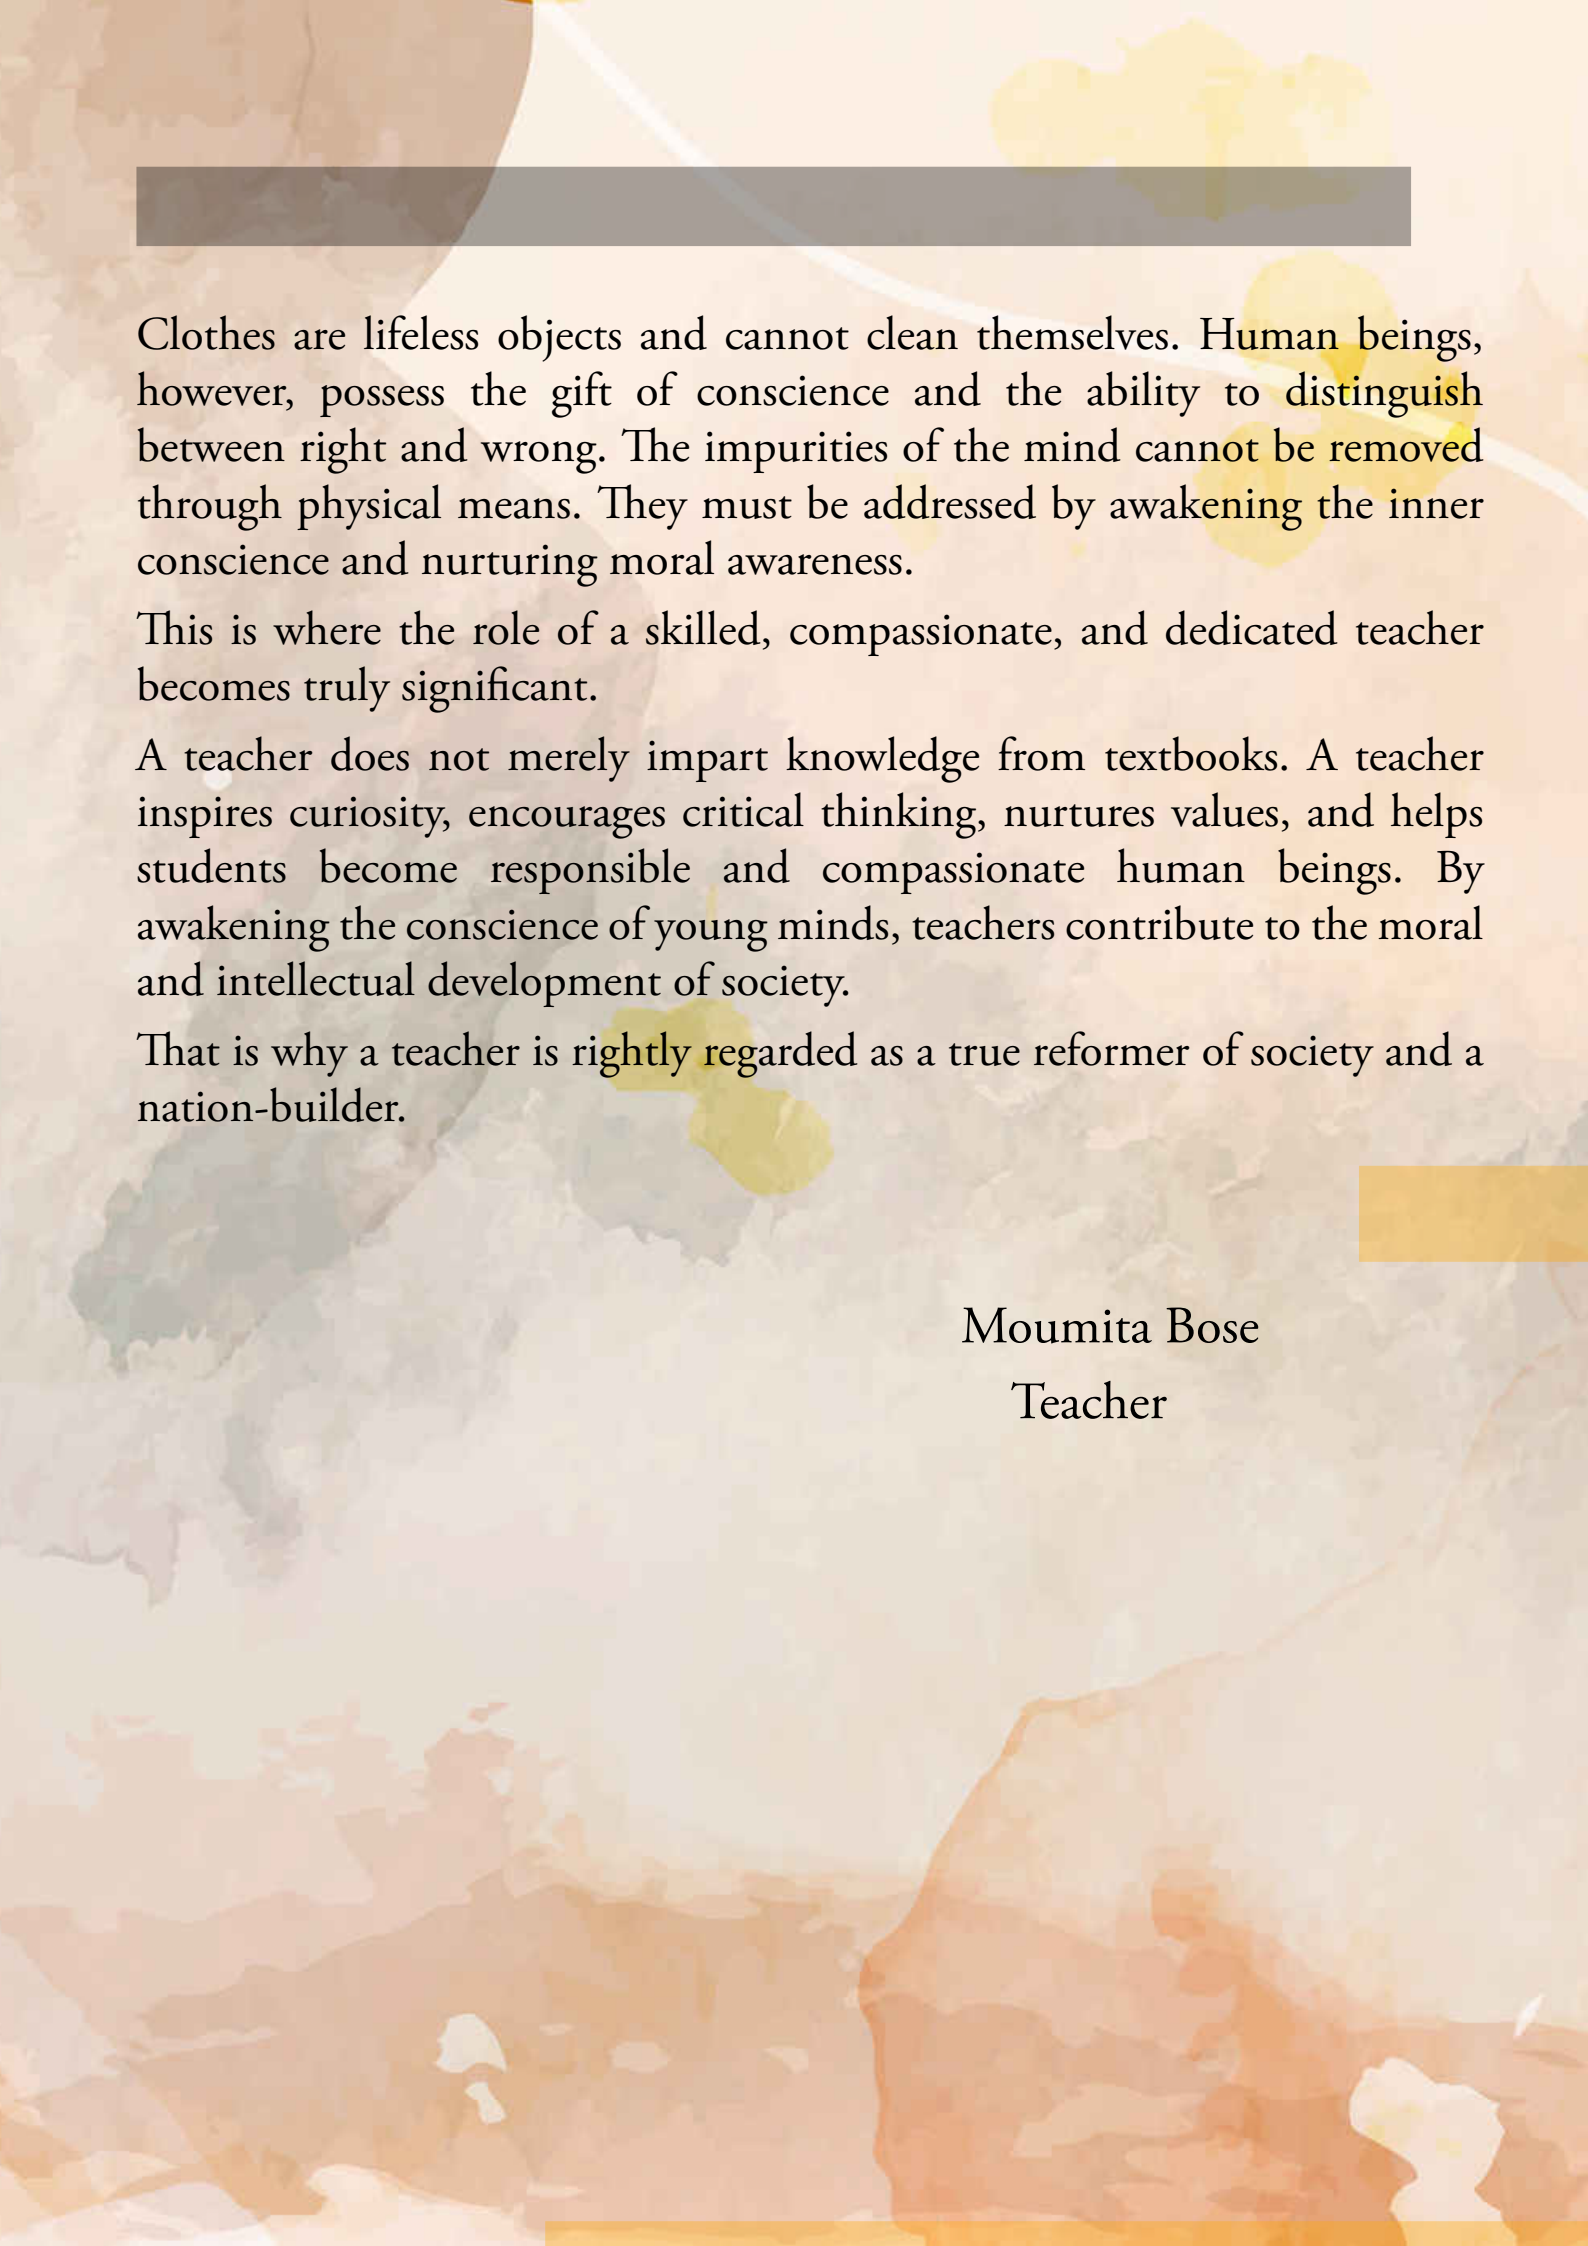

From the very beginning of life, human beings naturally learn to distinguish between right and wrong, good and evil. By observing the actions and listening to the words of parents, relatives, and friends, children gradually develop their own perspectives and values. They unconsciously absorb lessons from their surroundings, shaping everything from their knowledge of letters to the development of their character.

A true teacher is one who brings these influences to the conscious attention of students, helping them recognise what is right, embrace positive values, and reject what is wrong.

Every action and every thought has consequences. Understanding both sides of an issue is essential for gaining a complete perspective. Therefore, students should be given the freedom to make mistakes. Mistakes provide opportunities for learning, reflection, and growth. They encourage students to ask questions, and every question opens a new path towards understanding and truth.

The ability to dedicate oneself to a noble purpose is one of life's greatest achievements. For a teacher, guiding students from the darkness of ignorance and error towards the light of knowledge, wisdom, and righteousness is one of the noblest and most fulfilling responsibilities. Consider what happens when our clothes become dirty. We wash them with soap, scrub them, or gently rub delicate fabrics to remove the dirt. But what about the impurities that accumulate in the human mind?

Clothes are lifeless objects and cannot clean themselves. Human beings, however, possess the gift of conscience and the ability to distinguish between right and wrong. The impurities of the mind cannot be removed through physical means. They must be addressed by awakening the inner conscience and nurturing moral awareness.

This is where the role of a skilled, compassionate, and dedicated teacher becomes truly significant.

A teacher does not merely impart knowledge from textbooks. A teacher inspires curiosity, encourages critical thinking, nurtures values, and helps students become responsible and compassionate human beings. By awakening the conscience of young minds, teachers contribute to the moral and intellectual development of society.

That is why a teacher is rightly regarded as a true reformer of society and a nation-builder.

## शिक्षक दिवस

पाँचवाँ सितंबर हम सब  
शिक्षक दिवस मनाते हैं  
उसे दिन सर्वपल्ली  
राधाकृष्णन का जन्मदिन है  
मेरा भी जन्मदिन 5th  
सितंबर है  
हमारे जीवन में सबसे बड़े  
गुरु हमारे शिक्षक है  
शिक्षक हमें अच्छी बातें और  
बड़ों को सम्मान करना  
सिखाते हैं

## देश के वीर

बहुत साल पहले की बात थी,  
जब भारत मां पर रात थी।  
फिर सूरज बनाके आए वीर,  
लड़का लाइव उजियाली पीरा।  
अब आजादी है, खेल सकते हैं,  
खुशियों से हम जी सकते हैं।  
धन्यवाद उन वीरों को,  
जुलाई रोशनी नीरो को।

प्रिंस डेका  
कक्षा 4

## तिरंगा

भारत की है शान तिरंगा,  
भारत की है जान तिरंगा।  
तीन रंगों से बना तिरंगा,  
भारत का है सम्मान तिरंगा।  
हर शहीदों का कफन है तिरंगा,  
आसमा में ऊँचा लहराये तिरंगा।  
हर देशवासी की है जान तिरंगा,  
हम सबका है मान तिरंगा।  
भारत की है शान तिरंगा,  
भारत की है जान तिरंगा।

दर्शिल बोरो  
कक्षा-2

## स्वतंत्रता दिवस

स्वाधीनता मनुष्य के जीवन में ही नहीं, बल्कि पशुओं के जीवन में भी महत्वपूर्ण है। मनुष्य, परिवार, गाँव, शहर और देश—इन सभी में जब स्वतंत्रता का बोलबाला होता है, तो समाज में सत्यम्, शिवम् और सुंदरम् की स्थापना होती है।

हमारा भारत देश गुलामी की जंजीरों में जकड़ा हुआ था, लेकिन 15 अगस्त के दिन हमारे देशवासियों ने गुलामी की इन जंजीरों को तोड़कर आज़ादी की साँस ली।

1857 से आज़ादी की जंग शुरू हो गई थी। तब से आज़ादी मिलने तक लोगों ने अंग्रेज़ी सरकार के अन्याय और अत्याचार का मुकाबला किया। गांधी जी, जवाहरलाल नेहरू, सुभाष चंद्र बोस, बाल गंगाधर तिलक, लाला लाजपत राय आदि नेताओं ने स्वतंत्रता के लिए संघर्ष किया। गांधी जी ने सत्य और अहिंसा का मार्ग अपनाया था। चंद्रशेखर आज़ाद, भगत सिंह, राजगुरु, सुखदेव आदि वीरों के त्याग को कौन भुला सकता है?

“सरफ़रोशी की तमन्ना अब हमारे दिल में है,  
देखना है ज़ोर कितना बाज़ू-ए-क्रांतिल में है।”

15 अगस्त 1947 के दिन हमारे देश के पहले प्रधानमंत्री पंडित जवाहरलाल नेहरू जी ने दिल्ली के लाल किले पर राष्ट्रीय ध्वज तिरंगा फहराया था।
